

ON YOUR WAVELENGTH

SiteHawk SK-4500-TC Antenna and Cable Tester

Mike Gathergood
Bird Technologies, EMEA

August 2017

SiteHawk

- Compact, self-contained and user-friendly Frequency Domain Reflectometer
- Rapid diagnosis of antenna, combiner and transmission line problems
- Visual display of VSWR, Return Loss, Cable Loss and Distance-to-Fault
- Wide frequency range, 1 to 4500MHz
- Long battery life, typically 10 hours between recharges
- Also functions as precision RF power meter with optional sensor
- 3 year warranty

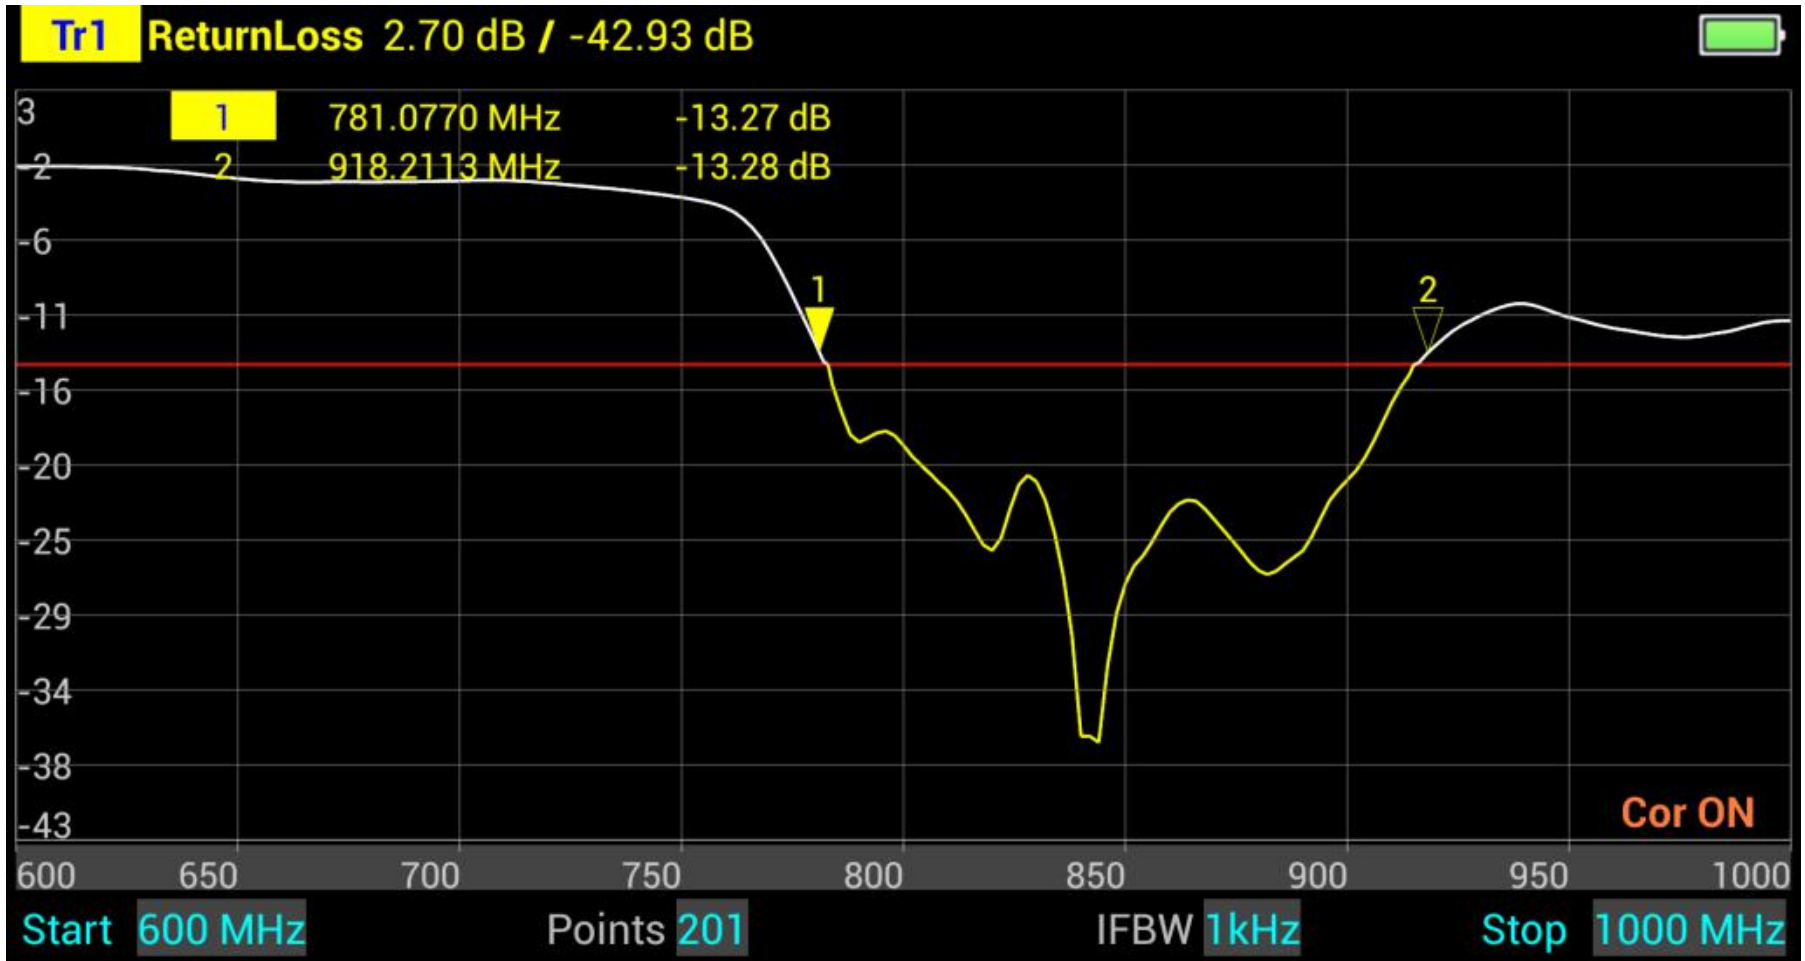

SiteHawk

- USB, WiFi and Bluetooth interfaces, for sharing files with other devices
- Scans can be exported at CSV (for analysis in Excel, for example), or in proprietary S1P format for post processing with (free) SiteHawk PC software
- Screenshots can be exported as jpg or png
